OUR PHILOSOPHY

Our SwimAmerica family is committed to providing a nurturing environment that promotes a lifetime of safety, fun and fitness. With the abundance of pools, lakes and rivers in our area, reducing the risk of drowning needs to be a top priority for our community; learning how to swim can save a life. We feel strongly that as a business in this community, it's our role to help keep families in our community active and safe. As a result, our Tuition Assistance program is available to help families afford the gift of swimming. Thank you for sharing our commitment in teaching your children how to swim.
